

Knoll Dining Tables

Seating Guide

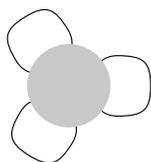

The information below is a general guide to dining seating, featuring our most popular table sizes.

- To select the number of chairs that can be used around a table, consider the leg placement and width of chairs. The standard for seating is 20" wide chair with 2" on either side. Using a larger chair, you will have a slightly cozier look and feel.
- Also consider the size of the room and the placement of the table in relation to the walls.

36" Round *Minimum Room size 9' x 9'*
